

CompSmart

Overview

Work Comp continues to be a significant part of a practice's payor mix. Work Comp can be the most difficult to bill and collect for your staff. To address these challenges, we are excited to introduce CompSmart.

CompSmart delivers a business process that offers our providers a one-stop resource for an immediate funding solution for all their work comp DME claims. For the first time, providers can take advantage of our solutions by streamlining their claim processing for DME items and increasing their revenues. Our solution allows for immediate reimbursement which reduces staff time required for AR follow up and paper tasks.

Benefits for the Practice

CompSmart offers our customers significant options for their dispensed DME. This solution has streamlined the way customers manage their claims. Key benefits of CompSmart include:

- **Guaranteed Funding** - receive your reimbursement payments **within 31 days** from accepted claim submission.
- Reduces your staff time required for billing and AR follow up associated with this claim / payer segment.
- Reduces the practice's financial resources tied up in product costs. Example; Bone stimulators.

Increased Practice Revenues

CompSmart allows our customers to develop a whole "new" revenue stream for their practice. Our service allows utilization of all brands of DME products (vendor neutral), increasing patient & doctor satisfaction. For clients already billing their own work comp, our system allows an opportunity to significantly streamline their processes electronically and create efficiencies & savings associated with their DME products.

How We Can Benefit Stock & Bill Practices

CompSmart provides an Ancillary Benefit Management solution targeted at practices currently serviced by stock & bill suppliers. Our service allows these customers a one-of-kind solution to move their work comp claims from their stock & bill supplier and capture these revenues for their practice.
